  - Yokohama: 1889
- 34 countries
- 344 companies
- Stilll working.

Legend:
- US
- JP
- KR
- DE
- FR
- FI
- GB
- CA
- Others

Special Thanks To

- The Secretariat Staff (the usual miracles, and a network too!)
- The Networking Folks (a most capable crowd)
- <<insert LL provider>>, who allowed us to buy their services at reasonable cost

Future meetings

Summer IETF: Vienna, Austria

- Vienna, Austria
- Host: Telekom Austria

Fall IETF: Minneapolis

- Hostless meeting – we do it ourselves again

Some things that have happened recently

- Intellectual Property
  - We are almost finished clarifying our rules
  - We still haven't changed them
- Nomcom
  - Rule clarification nearly finished
- IESG procedures
  - IESG charter & procedures drafts written

Recent Standards Actions

- RFC 3408-3495 (nearly a hundred)
- GMPLS is out! (January)
- IDN is out! (March)
- IP Storage is out!
- Diameter (AAA) is out!
- SMTP Delivery Notifications at Draft!
- SNMPv3 is at Full Standard!

IESG Appeals processing

- Appeal on IPv6 addressing architecture
  - Rejected by the IESG, accepted by the IAB
- Appeal on Internet FAX to Draft
  - Based on a misunderstanding, withdrawn
- Appeal on a RADIUS extension to Info
  - Accepted by the IESG

Talk to us!

- The IETF is YOUR show.
- The open mike is for YOU to tell US what to do
- Welcome to the IETF!
